

[SOLAR-GO] Smart Backpack

- USB interface design time charging, output voltage 5V, output current 1A
- Wear-resistant surface, high anti-fouling, easy to clean
- Suitable for long-distance travel on business trips

PRODUCT PARAMETERS

Colour	Black
Lining	Fabric
Main Material	Oxford
Size	305×170×460 mm
Product Structure	PV module/Main bag/Multi-functional compartment/Net bag
Nominal Output Power	7W
Open Circuit Voltage (Voc)	5V
Nominal Operating Voltage	7.2V±5%
Nominal Operating Current	1000mA
Short Circuit Current (Isc)	1100mA
Cell Efficiency	21%
Operating Temperature	-10°C~50°C
