

[SOLAR-JOY] Smart Freezer

- Fully enclosed compressor, free of freon
- Quick cooling, small size, light weight, stable operation, low noise, long service life
- Green environmental protection, safe and reliable, no pollution, no damage, easy to operate and simple to use
- 12V/24V power supply, suitable for outdoor use; 220V power supply for indoor use
- Multiple protection devices: low voltage protection device, circuit fuse protection, automatic electrode direction protection device
- With the unique secondary foaming technology, the 80mm super thick insulation layer can effectively prevent the damage of the underlining of the thermal insulation layer and achieve the internationally leading thermal insulation effect

Configuration List		
Name	Specification	Number
DC Freezer	208L	1
Photovoltaic Charging Controller	SCH-20A-EL	1
Battery	24V 100Ah or 12V 200Ah	1
PV Module	P660270	2
Electrical Parameters		
Type	DCF-208	
Rated Voltage	12/24V	
Rated Current	5A	
Rated Power	80W	
Litre	208L	
Refrigerant	R134A/85G	
Foaming Agent	C5H10	
Cryogenic Temperature	Refrigeration 0-10°C ; Freezing -18°C	
Power Consumption	0.6KWH/day	
Input Voltage	AC 220V or DC 12/24V	
Foaming Thickness	80mm	
Voice	≤40DB	
Refrigeration Mode	Direct-cooling	
Product Size	915*660*80 50mm	
Package Size	973*706*80 80mm	
40HQ	108PCS	
Certification	SASO	
Power Supply Mode
